

# 1. Radon in Colorado Schools 2009

Colorado Revised Statutes 25-1.5-101 authorizes the Colorado Department of Public Health and Environment to establish and enforce sanitary standards for the operation and maintenance of schools and other institutions. Regulations adopted under the law (Colorado code, tit. 6, s. 1010-6) requires schools to test for radon. Regulations also require that newly-constructed schools undergo radon testing within 19 months of occupancy and that remodeled schools be evaluated by the state to determine the need for radon testing. Regulations require that radon testing be carried out in a manner consistent with EPA guidance and that schools make the test results available. The results of these tests shall be on file at each school and available for review. This survey has been designed to determine Colorado schools compliance with the regulations.

## 1. School Information

School Name	<input type="text"/>
Contact	<input type="text"/>
Address	<input type="text"/>
City	<input type="text"/>
Zip Code	<input type="text"/>
Phone Number	<input type="text"/>
Email Address	<input type="text"/>

## 2. Colorado Department of Education School Code or Number

## 3. School District

## 4. Year school was constructed

## 5. Was the school built with Radon Resistant New Construction?

Yes

No

Don't know

## 6. Has the school completed the initial radon gas monitoring as required by regulation?

Yes

No

## 7. If no was answered to question 6, at what date is the required testing to be conducted?

If you answered this question, your survey is complete. Thank you.

Date                      MM    DD    YYYY  
 /  /

## 8. How many rooms were tested?

9. Did any rooms test between 4.0 and 20.0 PCi/L?

Yes

No

10. If yes, how many rooms tested in this range?

11. Did any rooms test higher than 20 PCi/L?

Yes

No

12. If yes, how many?

13. Have any remediation steps been taken in the rooms which were greater than 4PCi/L?

Yes

No

14. Briefly stated, what did this remediation work entail?

15. Were the rooms that were remediated retested?

Yes

No

16. If the remediated rooms were retested, were the results below 4.0 PCi/L?

Yes

No

17. How many rooms were still above 4PCi/L after remediation, if any?

18. If no remediation steps were taken, does the school have any plans to conduct remediation?

Yes

No

19. Have there been any major structural changes and/or changes in the schools ventilation system since the testing was completed?

Yes

No

20. If yes, does the school plan to retest?

Yes

No

Have already retested

21. Does your school have copies of the test results on file at the school?

Yes

No

22. Thank you for completing the Radon in Colorado Schools 2009 survey. If you have any comments, please leave them below.
